Engineering lies at the core of all that we do. Over the years and in response to customer requests, our company has evolved to provide integrated, multi-disciplinary engineering services, giving us the ability to guide our customers seamlessly from the feasibility stage through project realization.

Aziza M.E & S Ltd Consulting provides tailor-made services for projects across industries. Beginning at the very earliest stages of project planning, we take a unique approach to align business needs and contextual awareness to finance, monitor, and fully realize even the most ambitious projects.

Our vast network of technical partners and manufacturers around the globe makes us capable of supplying our clients with the most comprehensive choice of equipment and materials for their Seismic, Exploration & Production Operations.

Our Logistic profile can be arranged to suit specific client needs from the following options: airport pick-up /drop off only, per hour service, rent for the day, this entails providing transportation specifically suited to your schedule throughout the duration of your stay.

Our human-centric oil & gas training solutions are designed to increase individual as well as team skills and capability, maximize technology value, accelerate the usage of technical capabilities, and ultimately deliver quantifiable business impact.

World class protocol service with best experience from arrivals, airport meet and greet, baggage clearance, ensuring precise transport timing, and pre hotel check in. When specified, a protocol officer will serve as a tour guide, or as personal assistant for the duration of your stay, providing any of our value-added services.

## OUR TEAM

Our team includes mechanical engineers, QA-QC engineers, electrical engineers, civil engineers, process engineers, piping engineers and industrial installation, procurement and maintenance specialists who are all experts in their fields and dedicated to delivering results that exceed our clients' expectations.

Our workforce is managed and controlled by a group of highly competent management team with tones of experience in their area of specialization, giving our company an hedge(edge) over others in terms of productivity and service delivery to our clients.
